**Dear Sir/Madam,**

Yangzhou Jingdu Brush Co.,Ltd is a family owned and operated China based company, established in 2006. In the last 20 years it focused on natural white, black, grey boiled bristle, brush filament, tapered brush filament, make up filament, PBT eyelash filament. The company plays significant role in the region. We enjoyed great popularity in world market.

Refer to the production capacity, we can produce 1000 kg boiled bristle and 2000kg brush filament one day.

We have around 85 employees, 5 Engineers. We have good quality control system.

Now we would try to sell the top sold products directly to abroad. Please see the below all the products which are on the selling.

We would appreciate if you gave us inquiry.

Kind regards,

Sunny Wang  
Yangzhou Jingdu Brush Co.,Ltd

**PRODUCTS WE HAVE ON OUR LIST**

## Natural White Boiled Bristle

Size(mm)	Tops	Colors	Quantity KG(MOQ)

42	100%	Black with yellow tip	50

## Colorful Cut Root Boiled Bristle

Picture	Size(mm)	Color	Quantity KG(MOQ)
	25, 26, 28, 32, 36, 40, 42	Red	50
	25, 26, 28, 32, 36, 40, 42	Dark Blue	50
	25, 26, 28, 32, 36, 40, 42	Yellow	50

## Yangzhou Jingdu Brush Co., Ltd

	25, 26, 28, 32, 36, 40, 42	Light Blue	50
	25, 26, 28, 32, 36, 40, 42	Red mixed white	50
	25, 26, 28, 32, 36, 40, 42	Blue mixed white	50

For Boar bristle, the thickness of bristle would be influence the price.

Below 0.13mm diameter of bristle-----softer

Around 0.16mm diameter of bristle-----middle hardness

Around 0.18-0.20mm diameter of bristle---hardness

More than 0.20mm diameter of bristle-----much hardness

## Report of natural white bristle imitation

### Principle:

- Make the paint brush with the same weight of JD SMART A, JD SMART B, JD Cross-section, JD Bristle. Same Lengthout, Same Gule, Same Stainless
- Put them in the water-based paint for 3 minutes
- Take out them until there is no paint drips and weight the paint brush
- Paint on the Gypsum board until not smooth
- Weight the paint brush again

We made paint brush of 3kind of brush filament and one boiled bristle ,the filament is as following:

- JD SMART A
- JD SMART B
- JD Cross-section
- JD Bristle

# Yangzhou Jingdu Brush Co., Ltd

			
JD SMART A 83.8g	JD SMART B 81.5g	JD Cross-section 80.4g	JD Bristle 79.7g

Frist Step: Weight of the total of paint brush

			
JD SMART A 120g	JD SMART B 101.8g	JD Cross-section 110g	JD Bristle 111.6g

Second Step: Put them in the water-based paint for 3 minutes, Take out them until there is no paint drips and weight the paint brush

			
JD SMART A 106.1g	JD SMART B 95.6g	JD Cross-section 102.6g	JD Bristle 99.7g

Third Step: Paint on the Gypsum board until not smooth, Weight the paint brush again

	Weight of Paint brush(Grams)	Weight in the painting (Grams)	Absorption (Grams)	Weight after releasing the painting(Grams)	Release (Grams)
JD SMART A	83.8	120	36.2	106.1	13.9

## *Yangzhou Jingdu Brush Co., Ltd*

JD SMART B	81.5	101.8	20.3	95.6	6.2
JD Cross-section	80.4	110	29.6	102.6	7.4
JD Bristle	79.7	111.6	31.9	99.7	11.9

From the test and date, We found JD SMART A is more paint capacity and more release. However it is not smooth.

Name	Paint
JD SMART A 230CM	
JD SMART B 166CM	
JD Cross-section 134CM	
JD Bristle 217CM	

From the test, we found SMART A is painting more longer, However, it is interrupted. Not finesse and precision. JD SMART B, when release, more finesse and precision. JD Bristle, it also has interrupted

# Yangzhou Jingdu Brush Co., Ltd

Why we choose this four kinds of material?

## JD SMART A----New Product

- Natural White Bristle Imitation appearance
- Soft body
- Soft Tip
- Paint holding capacity

## JD SMART B----New Product

- Natural White Bristle Imitation appearance
- Release more finesse and Precision
- Paint Holding Capacity

## JD Cross-section

As you know, Cross-section is more paint holding capacity compared with solid and hollow. However, from the test, we found that the paint holding capacity is not good than JD SMART A. And Release is not good than JD SMART A and JD SMART B

## *Yangzhou Jingdu Brush Co.,Ltd*

---

### JD Bristle

As you know, Natural Bristle is the most paint holding capacity and release paint material at the moment. However, from the test, we found that the paint holding capacity is not good than JD SMART A. and Release is not good than JD SMART A, **But it release finesse and Precision than JD SMART A.**

### Summary:

- JD SMART A is best in painting holding capacity and release paint, however, when release, it is not finesse and precision
- JD SMART B is the best of finesse and precision release

**Note:** we are not professional of paint brush, maybe the power of using in painting influence the result. If you want more accuracy result, please test by machine and yourself
